15 April 2009

President Barack Obama
The White House
1600 Pennsylvania Avenue NW
Washington, DC 20500

Dear Mr. President:

The Obama administration will be known for its attempt to push many, many agenda items through in an incredibly short time. Whether it will be known for brilliant success or dismal failure remains to be seen.

The latest initiative that I have seen is your push for immigration reform. This is something I support, but could you first take care of the problems of the people who are already our citizens and who are sacrificing their lives to protect the United States?

Our servicemen and servicewomen need your help to get the health care needs met. Please don't stop your work on that problem because of all the other initiatives you are interested in.

Getting out the information about the needs of our servicemen and servicewomen is an incredibly hard task. I'm writing for the eleventh week to ask you to continue improving health care for our veterans. People who have read Eric Newhouse's book, *Faces of Combat, PTSD and TBI* will understand what our veterans have gone through and why something needs to be done.

Sincerely,

Thomas M. Blaschko
President, Idyll Arbor
