Dear Mr. President:

We are starting to hear from more organizations as they begin to see how *Faces of Combat, PTSD and TBI* can help them get the word out about the health care needs of our military. We have emails today from Paul Sullivan of Veterans for Common Sense and Cheryn English of FMS Productions.

Eric Newhouse is continuing his speeches across the country to bring the word to vets and health care professionals. You can see his schedule at <http://www.ericnewhouse.com/schedule.shtml>

I hope you agree that gathering support for our veterans is a step along the path to better health care for all Americans. It's also an issue that should draw a few Republican votes and shore up your bipartisan image. After all, how can a Republican get away with voting against our veterans?

Sincerely,

Thomas M. Blaschko
President, Idyll Arbor

p.s. The race between you and Garry Trudeau to see who will be the first to hold up the book continues. Please pass this weekly book on to an appropriate staff member. Every bit of support will help.
