Dear Mr. Trudeau:

Stop-loss is going away! If only adequate health care would follow. If you want to suggest ways to really help vets, you might take a look at the use of EFT. Practitioners are offering six free and confidential sessions to any vet who is interested. Here's a web site. <http://www.stressproject.org/multicitystudy.html>

I think we can help you get your message out. Please let people know about Eric Newhouse's book, *Faces of Combat, PTSD and TBI*. Eric makes the case for our responsibilities to our military personnel and looks at other treatment methods.

Sincerely,

Thomas M. Blaschko
